Who am I?

4-I Come In Many Colours

And I am seen on your birthday

You Did Better Hold Me Tightly

Or else I may fly away

Who am I?

Q.3 Read the passage and answer the following Questions-

The Sun is a star around which many planets revolve such as Mercury, Venus, Earth, Mars, Jupiter, etc. The nearest planet to the Sun is Mercury and Neptune is the farthest one. There is a total of eight planets in the solar system.

The sun is a ball of gasses like helium, oxygen, carbon, and hydrogen but it has the largest amount of helium and hydrogen gas. The temperature of the outer surface of the Sun is about 5500°C, which is very high.

Also, there are some such stars that are bigger and brighter than the Sun in the entire galaxy.

The Sun plays an important role in eclipses. A solar eclipse occurs when the Moon comes between the Sun and the Earth whereas a lunar eclipse occurs when the Earth comes between the Sun and the Moon.

Questions – 1. Write the names of any three planets.

2. Which planet is the nearest to the Sun?

3. What is the temperature of the outer surface of the Sun?
4. When does a solar eclipse occur?
5. How many planets are there in the solar system?

Q.4 1. Read the sentences and circle the Noun-

1. The Garden was in a school playground.
2. Sunflower and Roses stood high against the wall.
3. The flowers were talking to the birds.
4. The boys are good to us.
5. We love the little children.

Q.5 Write the 5-5 Rhyming words of each-

- | | | | | |
|--------|--------|---------|--------|---------|
| • Boy- | • Bed- | • Bell- | • Top- | • Pin- |
| • Mat- | • Man- | • All- | • Day- | • Sing- |

Q.6 Write one page of Hand-Writing daily.
